

Kaler Executive Series

Product Description

The class desk is made of elegant wood color, and the real natural color coating and black leather create a solemn, elegant, and no-exaggerated color for the office environment. Attached cabinets and file cabinets adopt a simple handle-free design, incorporating high-tech automatic pop-up guide rails, silent damping chains, LED induction lights, etc., to truly experience the changes brought by technology, and the stepped edge design makes it more valuable, With natural-color lacquered desk top and black leather pad create a dignified and elegant environment for the office. The side and back cabinets use a handleless design door. Some high-tech accessories such as an automatic pop-up guide, mute damping hinge, and LED sensor light are used in the cabinets, The users can experience the real change from the technology.

The design of the conference table uses a square and regular shape, showing the solemn temperament of Caral. The delicate aluminum alloy wire cover on the countertop and the practical devices of the leather pads at both ends add a little more dynamism to the original calm tone.

The conference table is based on the square and regular modeling, Delicate aluminum alloy wire cover and the leather pad on both sides add some jumpy to the originally calm keynote.
