

Pouf - ZOO

Product Description

Technical Specification:

- This product uses a 15 cm bent plate with a 3D die-in-one molding process and is shaped using a five-axis machine carving technique.
- It undergoes fumigation and insect-proof treatment, ensuring there are no visible scars
- Both the desktop board and base plate are made from 15 cm multi-layer plywood
- The surface features a natural ash veneer with an open-effect lacquer spray, available in wood color, black, or walnut finishes
- The seat bottom is crafted from high density shaping foam, while the seat surface uses 45-density high elastic cutting foam.
- Fabrics can be selected from imported or domestic options.
- Hardware accessories include models Sea Lion 01 and Elephant 02, made of 1.2 mm thick,

22 mm diameter steel pipes, bent and welded, with surface finish options of electroplating or black frosted matte.
